

OUR MISSION

Minority Enterprise & Educational Development, Inc. (MEED) is a nonprofit organization whose purpose is to positively impact Colorado's minority communities by providing educational opportunities, empowering minority businesses, recognizing business successes of minority ventures and giving voice to the power of collaboration through scholarships, training and celebration of the State's cultural diversity.

OUR HISTORY

MEED began in 1984 with a group of volunteers that were responsible for organizing the Minority Enterprise Development (MED) Week for the State of Colorado. This week was designated by the President of the United States to honor the many successful minority entrepreneurs in our country. In 1989, the volunteers started a scholarship program for high school students in the Denver Public School System, giving 10, \$1,000 scholarships every year to high school seniors.

In 1996 the group felt that it needed to formalize to be a standalone entity and applied for nonprofit status. MEED was granted this status in 1997. During this same time, the Helping Other People Emerge (HOPE) Scholarship was implemented and focus of scholarships changed from high school to middle school students. Since then, MEED has distributed nearly \$400,000 in scholarships to minority youth throughout Colorado. For the last 25 years, MEED has also continued to provide recognition to successful minority businesses via an awards luncheon held during MED week each year.
